

The Cleansing of the Earth 2012

The Cleansing of the Earth 2012 tells the transfixing and unforgettable story of Lucyna Lobos, who experienced a clinical death in a Poland hospital. Later, during a hypnotic regression, she saw an insightful and extraordinary vision -- which gave her answers to the secrets of the Great Pyramid of Giza, Egypt.

Her memories hold a fascinating, riveting tale. A young Ancient Egyptian priestess is appointed by the gods to fulfill her mission in the Age of Aquarius. This is at the time of King Khufu, the builder of the Great Pyramid.

Khufu, the One Who Arrived from the Sky, came to Earth to build this amazing structure with Star Visitors from the Ashun Planet in the Orion Constellation. They placed an "Energy-Magnetic System" in the pyramid. The system will protect the Earth during the return of the Nibiru Planet -- the same one that caused the biblical flood some twelve thousand years ago.

Now it is up to the Lucyna Lobos and the organization that supports her to convince everyone that change is coming in the year 2012, when the Earth and its people will be cleansed and humans will achieve the fourth dimension. This will be the fulfillment of the Age of Aquarius.

Ryszard Choroszy lives in Chicago with his wife, Barbara Choroszy, a journalist. They represent an archeological research foundation, "The Mysteries of the World," which co-finances archeological research and excavations in Egypt. These excavations are of historical significance reaching back to biblical times and are elaborated in Ryszard's book.
