

StrongStand takes the reader on a journey led by a young warrior as he matures from a boy to a man. He tells his story to his grandchildren, detailing his younger years of heartache and heroism. As he tells his story to his grandchildren, they will be introduced to their ability to move nature and communicate telepathically. For years these people have lived in seclusion, keeping their small village away from persecution. These years of peace are broken when an evil leader known as the Lord of the Land and his legion of followers mark these territories and scorn to their way of life. The book builds up to an enormous climax: many outnumber them, but their ability to move nature with their minds equals the odds. Through Andrew's story, meet a unique group of people and learn their way of life as they live through serene moments and battle for survival.

Matthew James Mendoza was born June 4, 1971. Since high school he's had an underlying desire to write a book. At age thirty-six, he bought some notepads and started writing, realizing it was something he really enjoys. He now spends any extra time he has writing, hoping all who read his work take pleasure in it.
