

This is a story of triumph and tragedy, of hope and hopelessness; of power and of pain, and no matter what happened, John Amburgey walked with God. To me, the writer of this great story, he is greater than Superman. Once you have read this story you will agree that his life has touched yours as much as it has mine. Some stories just have to be shared with the world, and this is one of those stories. I just hope that I can do justice to such a great man of God.

See the view of the life of a Pastor, who is but a man, a normal loving father, husband brother and son. We see him every Sunday and we hear the words that God gives him to deliver to us in making our spiritual journey in this life brighter and easier, but what of his life? Who is he? This story is a special inside look of a great man who did the work and will of God in serving God and His people. In the end and all his life through, he learned to soar with the eagles.

David lives in Acworth, GA with his wife Lisa, sons, Johnny, II, and Micah. His daughter, Amanda has extreme autism and does not live with them full time for her to receive the proper care that she needs. He spends his time writing and promoting his books and is also an ordained minister with the National Association of Free Will Baptists and speaks in churches when called or needed. For more information about him and his work go to his website. www.authordavidamburgey.com
