GENESIS-The Tide of The Times

is the autobiography of the times of my life
It is a candidly written book Bold, Honest to the
bone, and True.

Within these pages you find out there is a
purpose to Bad times. It is the core root behind
all we love and cherish.

Among other things it is a self help book told by
someone that suffers from Schizophrenia and
Clinical Depression. About a loser who stands
out in the midst to become a winner who has
had to fight for everything he's got.

This book travels its journey half between black
eerily lit moonlit roads and the other half in pure
sunshine with Pleasure. Let me relive my life in
what I tell you. In this book the times of my life.
