YOU COULD WIN ONE...

INTRODUCING...
A new educational game created
by author Melvia Miller

This BOARD GAME is a fun way to
learn and grow. Players must think
and apply skills and knowledge
of variety of subjects (history, math,
science, health, nature, geography,
etc.). Players go on a journey into
discovering ways to escape "the
matrix of delusion & ignorance."

EXCELLENT FOR SCHOOLS, YOUTH
CENTERS, TRAINING, SEMINARS, etc.

** Purchase a copy of the INTRO
BOOK @ \$12.95 ea. + \$3.00 SH **

Your name will automatically
be entered into our drawing to win a
"DIGITAL EDITION" of this game.

"What we do to the planet...we do to ourselves."

Learning is FUN-da-mental

"Playing" is one way that children use their imagination, solve problems,
use their "creativity"... and learn from each other. GAMES & EDUCATIONAL
ACTIVITIES are far more effective than just lecturing most of the time.

EDUTAINMENT incorporates this natural learning process into methods for
learning academic subjects and other skills.

When I was growing up there were no computer
games, no cable tv, and definitely no internet.
But, we did have a
wild AND creative
IMAGINATION
and playing
with our
siblings and
neighbors
was such
A Treat!
These days
I still never
FORGET...
