

MEMORIES WILL NEVER DIE!©

MEMORIES WILL NEVER DIE!!

There was said that most people will never forget anything and everything that happened in their life. Memories will never die, most people walks among this planet they call earth which it is beautiful. Memories will never die, to some extinct it's true this plant earth is beautiful. Memories will never die, I believe you only have one life to live and I think you should live it to the fullest. Memories will never die. Just think for a minute and look around yourself. Memories will never die, when you wake up every morning what should you ask your self, memories will never die, thank God you have risen another day to encounter the better and greater things in life, memories will never die, Like for instance being able to feel and look healthy, and to do the things you like doing for yourself and remembering the good and bad times memories will never die.

MEMORIES WILL NEVER DIE!©

You and your friends or spouse or what have you. Memories will never die, like for instance do you remember the time when you were just born, I guess not. Memories will never die, most or all of us was just too little to remember anything. It was just a thought. Well I want to tell you remembering things is not easy. Memories will never die, I bet you all are saying why don't you get to the point, memories will never die. Okay it's like this with me. Let me take you back to 1965, that's the year I was born. Memories will never die, listen at this because I will only repeat it once, memories will never die, I am just kidding, any way the year 1965 I was just a shorty with curly hair, memories will never die. As I can remember when I looked at my baby pics, memories will never die. My vision remembering is when

MEMORIES WILL NEVER DIE!©

I only spend 1 year of knowing who my father really is. Memories will never die, for that one year getting to know him, I attended xxxx Jackson grammar school. Memories will never die, I was there by choice, But anyway that time I will never forget. My father got into a lot of mishap. Most I could not recall. By me being a shorty, memories will never die. Me and my dad didn't know each other very much that's because I spending most of my time with my mother. Memories will never die. Which where I belong with her. As I was growing up me and my family lived on the west side of Chicago. Memories will never die, As a shorty there I watched a man and woman get into a relationship argument the lady boy friends stab her to death as my mother told us, the family to give the lady a sheet to put

MEMORIES WILL NEVER DIE!©

on her so she would keep warm. So when the police arrive, memories, will never die living on the west side of Chicago crime.

was very High Back Then. Memories will never die, some days and nights me and my family had to deal with the crime while we were growing up. Memories will never die, but as we was moving ahead in life. My family and I moved into the projects in Chicago as I can recall. Memories will never die. As me and my family was staying in apartment 203. I will never forget that apartment number. While our stay in the projects I have met some talented people and seen some bad people. Memories will never die. I use to play strike out with some of the fellows. Strike out is when a guy stands in front of the batters box and try to hit the ball. Memories will never die.

MEMORIES WILL NEVER DIE!©

Me myself I also played on a softball. Team called the xxxx. We, were ok, memories will never die. Me myself I have done a lot of activities to stay out of trouble. Also I joined the boy scouts for three years. Troop 243, memories will never die, every year my rank in the boy scouts sky rocketed from private to corporal, to sergeant, to Jr. Assistant Scout Master. Memories will never die. My mother was very proud of me to try different activities to see which one I liked or be, good in. Memories will never die. There we so, many thing I would have done to keep myself out of trouble. Staying out trouble I did. Well anyway the next thing I've done is that I attended woodson north grammar school then after I graduated from there I went to king High School in Chicago Illinois

MEMORIES WILL NEVER DIE!©

Memories will never die. But at the time I didn't make the teams, I dropped out of all activities. There is one activity I stayed in for three years. That was R.O.T.C. memories will never die. Well after King High School which I was only there 1 year. My remaining 3 years I attended Fenger High School in Chicago Illinois. From there my last year I was in the body building contest my final year, memories will never die. I lost the competition but I gain recognition. Therefore, after Fenger High school I went off to Edward Waters college in Jacksonville, Florida. Memories will never die. Being there it was a all black institution. I didn't like it there, the breakfast, lunch, and dinners were very small, so most of the students ate dinner at a chicken shack down the street from the college. But I made the best of it. Memories will never die. Back then in 1983, that's when break dancing was out. I used to break dance on my head in the lobby of college. Memories will never die. While I was there at Edward.

MEMORIES WILL NEVER DIE!©

Waters college I met a guy name Eddie from Chicago also, He was very gifted his goal was to be a doctor, memories will never die. Eddie probably have reached his goal by I remember when he use to give me the answers in school, my biology class, every time we took a Exam, he was the first student finished and left early and received an A on the Exams. I received A, B. Memories will never die. Also while I was there in school I had met a wonderful lady. Name Nadine, she was Chicago also. Memories will never die. We dated for 1 year, she treated me like a King. Well any way after I left Edward waters college. I attend south west Oklahoma state university. I only attended there for three weeks. That college was not of my likening. So I moved on. Memories will never die. Next destination olive Harvey college in Chicago Illinois, I attended there for 4 years my major was criminal justice at one point in my life I wanted to be a private investigator

MEMORIES WILL NEVER DIE!©

Memories will never die. The best time I had there was when I signed up for PT. I loved to work out. When I was there we had this bodybuilding club called the ball barians. We placed 1st place every year. Memories will never die. There was only five guys going against eleven or more guys completed. At various weight lifting contests. I broke records, for being the strongest man in my weight class, memories will never die well time goes on. There is a lot I will never forget about in my life. I just want people in society to always remember that the things you do in todays world is going to always stay on your mind, it could be good or bad, memories will never die. Well anyway after I left olive Harvey college in Chicago Illinois, I worked for a fast food restaurant for 1 year, than the money that I made their I bought a eight hundred dollar good running car. Memories will never die. After I bought my 82 ford fairmont that looks like a detective car as some people told me. I pursued another career I worked at a retirement home for five years. Man time show did fly bye fast,

MEMORIES WILL NEVER DIE!©

Memories will never die. My stay at the retirement home I worked at in Hazel crest Illinois, I have met some very nice people. For instance I met Hurbie Hancock mother and father. My duties there was cleaning carpets, empty garbage cans etc. Memories will never die, most of my old and new memories have been very interesting to me, that's why I had to bring it to everyone's attention. Everyone in life will have a memory or two, like for one lets say all your life your parents were very close to you. And all of the sudden they die of old age or what have you. That will put a hurting inside your heart. Memories will never die. My opinion every one have memories, presidents, politician. Police officers, Judges, Doctors, lawyers, etc. Just to name a few. But most of you probably already know that. So what I am getting at is professional people can make mistakes in their life also. Memories will never die. Let me step aside for a moment and bring up several known people that will have memories.

MEMORIES WILL NEVER DIE!©

For the rest of their life. For instance of most of us in society doesn't really know did he committed these murders. We weren't to judge him when we don't know him. But if he did committed these murders, there will be a memory he would not for get. Memories will never die. Also take Michael Jackson, I am a big fan of his and I will always be. But we don't know his life only he knows that so let's not judge a person and talk about his life when we don't know him. Please don't judge a person when you don't know them at all. Memories will never die. The next person is snoop dogg we don't know his legal problems. Well there are more people out there that have memories. To name a few more well known people like for instance Britney. I believe she is a unbalance person.

MEMORIES WILL NEVER DIE!©

But enough talking about well known people let's get back to the normal people like you and I, well I guess I finished off by talking about people making mistakes in their life and will regret it later. Memories will never die. Well the next chapter in my life after college I had no choice but to accept low paying jobs at the time. Me myself with no college degree and no parents living I had to grow up very fast. Memories will never die. Yes at that time I was hurting inside. But once in your life we all will have to get over our hurt. Well one of the jobs I did work for after college was working with disabled kids. Most of the kids liked me. Memories will never die. I have met a lot of very nice co-workers there. After all most co-workers were woman. Our staff and I have been on a lot of field trips with the disabled kids. We will never forget the good times and laughters. Memories will never die. Well moving on, the next adventure I had in my life was

MEMORIES WILL NEVER DIE!©

when me and my best friend was walking to a dance club on new years eve which was not smart. Me and my best friend didn't make it to the club by 12:00 midnight the shooting have already started. So we proceeded to run toward the club. When all of the sudden police officers came out of know where. It was about 5 squad cars pulled up. Memories will never die! After they pulled upon us. They searched us and ask us where are we going and we replied to a club up the street and they replied to us and said they have never been any blacks inside that club in years. And we replied we know the owner of the club and the bouncer. The cops started to search the cars in the parking lot who me and my friend was standing by. Memories will never die. It was a very experience night that night but they had to let us go. Now these are memories an everyday individual will not forget. Most nights I couldn't sleep just because of thinking about the past may be we all should forget about the past and look forward in life, but how can you forget when every day you wake up out of your bed.

MEMORIES WILL NEVER DIE!©

well anyway, moving ahead, it was the year 1983, just when I have finished high school I had met a wonderful lady, and wonderful she was, she was understanding and caring she was all a man would need. We dated for one year but at one point in time she was a little different for me she had various personalities. Personality I couldn't handle memories will never die.

She was, a very nice person one moment and the next she would be a devil. So I moved on with my life, sometimes I feel like my brain is about to bust just thinking about a lot of the past but I can't help it. Most thoughts and memories just want go away. Memories will never die. Some memories adds on everyday and night but sometimes I have to deal with it. I have met a lot of people. Including a sweet lady from Canada the only reason we didn't stay together is that at the time I did have my own place to live. So she returned back to Canada, those were memories in my head also, I will never forget. At least not try to, memories will never die. To me remembering the past and present is very important to me. And it should be to every one also. For, instance those of you male or female

MEMORIES WILL NEVER DIE!©

That use to be in a street gang or have you. The murders that you have committed. Some of you are doing time in prison and some of you have gotten away with it. I want you all to remember no matter what, the memories in your head will hunt you for ever so I suggest you all straighten your life up. Before it's too late. Memories will never die. Sometimes I wish all celebrities learn to be a speaker to the kids that's in school nowadays most kids need a role model. And of course I will be gladly to pursue a role model. Memories will never die. Hell I remember when I use to eat four plates of dinner at the table. And I said to myself where all of this food has gone to. Memories will never die. I was the only one in the family that could eat a lot. I was only weighing 158lbs. Those were the days. To remember, memories will never die.

Knock on wood I never had any accidents in my life I think I very lucky.

MEMORIES WILL NEVER DIE!©

because holding everything in your head, doesn't accomplish anything in the long run. That way I am coming forward to let you all know that memories and thoughts do exist. Most people will tell you that whatever they have done in the past they don't remember that's a lie. Maybe at that point and time they don't want to share it with you. For some reason, Memories will never die, Sometimes I wouldn't blame them. What you should do or I suggest that you pick a good trust worthy friend and tell them about the good and bad things that are on your mind. I know I would. Memories will never die. Moving ahead, I remember in 2001, I have traveled to a lot of places. Like Brazil, Las Vegas, etc. I had to tell myself that I have to slow down. Memories will never die. The most place I like of them all was Brazil. There I met beautiful women. So many women. Most of the women I met

MEMORIES WILL NEVER DIE!©

cooked for me. And also they took me to the mall. Their personality was different from United States women. Memories will never die.

MEMORIES WILL NEVER DIE!©

Memories are every where, when you go out side look around you. Our thoughts are here. Memories will never die. Most of us take life for granted. We have to be strong for the new generation. We all should pass our memories down to them even if it's the little things that we do or see. The new generation are looking for memories so we should give them good memories. Let's not give them bad memories. Because right now we have seen to many with the senseless killings and the missing persons. Memories will never die. Now days memories are every where keep them in your heart. Because you never know when they will come in handy. For instance if the police need you for a witness of a crime you would be available. Memories will never die. There are simple things in life on remembering memories you just have to figure out with ones are important to you. Recently I was in a detective movie as a extra, now those are memories everyone want forget. Also I met and had taken a picture with buffy the Body she is a model and actor. Memories will never die.

MEMORIES WILL NEVER DIE!©

As one summer I had visited Las Vegas and partied at club pure. And met and had taken a picture with suge knight. He was a nice person. There are a lot of memories there. Memories will never die. So what I mean is I have met a lot of people through my life of memories. I strongly believe most of us will also.

MEMORIES WILL NEVER DIE!©

include the memories of yesterday and the future and tell me what you see. I was right you can see the past. Memories will never die. Remember that apple pie your mother once baked for you when you was a kid. You will never forget it. You will love her forever in your memories. Remember the times when you voted for the president of the United States with your voters card those yester years will never be forgotten memories will never die.

MEMORIES WILL NEVER DIE!©

There are some examples why we, have to keep memories in our heads is because, when we are dead and gone we, need to pass our legacy down. Just like the dinosaurs days. We have found old bones of animals back in the day and we try to study them as best as possible. So, we could get a understanding how life was decades ago. Memories will never die. Most of us may speak with our mouth but before it is all said it will be all in our minds. As you read this book what memories do you have may be a life time of old memories. There is nothing I could tell you. About memories. Well let's get to back to the memories of my life. Memories of myself I wanted to play pro football did I succeed, no but I tried maybe I didn't try hard enough. Memories will never die. Always remember people, my memories will be with me forever until the day I die. Well anyway back to my life of football.

One day I was staring at the wall. And I were dreaming of being the best at what I do in life so I have chosen

MEMORIES WILL NEVER DIE!©

Semi-professional football. I put my body threw hell of a rigorous workout. I jog in below zero weather. I ran up hills like walter payton. And I had wore the number 34 on my back. But and way I had became a Chicago heights bron co. number 25. I had became Dogg Nivla that's who I am and will be no other than nivla. Memories will never die. Man, man, man, you people just don't know about all of these memories that's in my head. I believe this is the only way to bring them out is to write about them. May be these memories will give society a, idea to write there memories down also. Memories will never die. You know I was thinking what is memories without your best friends. Sharing them with you. My memories include my best friends and family and what I see in my everyday life. Sometimes I think even when we go to haven their will be Angels and memories. Memories will never die! You know what I want people to do is just close their eyes and concentrate on all their thoughts, use every imagination they could think of.

MEMORIES WILL NEVER DIE!©

Memories are, like thieves that comes during the night when you sleep. Have you ever had a memory when you thought someone is breaking into your house it can happen, the memories that you capture can happen any day and time. Memories will never die. Always remember we are the human beings of having memories rather their good or bad. For instance do you remember the movie roots, the incident years ago that really did happen in the slavery days in the future because of memories to be past down to generations. Memories will never die. There are a lot I could tell you about memories but there are some what little time in life to talk about it very much. Memories will never die.

MEMORIES WILL NEVER DIE!©

Memories are forever, drug dealers cops, firemen, singers, actors, rappers, pharmacists, bank tellers, co-workers, supervisors, they all have memories, memories will never die.

Also memories could be for the young or old. What we see with our own eyes becomes very important to us. The memories the thoughts the ideas are just not understanding. What I am getting at is memories will stay with you for life forever. Think about this for a minute. Remember when you first bought your first car you were excited. Well that is old memories to remember. Memories will never die.

MEMORIES WILL NEVER DIE!©

Memories is very deep to us. All especially me I keep myself in a deep thought of having memories of yester years. Most of the time the memories I am having now are recent. I have seen the passing of my friends that have died. We all use to party together. How can you ease that from your mind. Memories will never die. Sometimes I feel

MEMORIES WILL NEVER DIE!©

Very disappointed about life but most of the time I have to deal with my memories. Let's all face the fact, memories won't go away especially mine. No matter how I look at it. Memories will never die. As my memories continue in my brain. I hope that my memories book gives us all some insights of remembering what had happen and what is about

MEMORIES WILL NEVER DIE!©

To happen in our lives. We all should care of whats going on in the world. Some times when I remember a lot and think a lot I feel like sharing my memories to the world. Because I personally think that you can't just keep your thoughts and behaviors to yourself. Memories will never die.

MEMORIES WILL NEVER DIE!©

My memories also include all of the parties I have attended, some I could name, like the walter payton club, the Box, the cotton clubs most of these clubs I attended when I was in high school. Believe me there are a lot of memories that dwell within our minds that we wouldn't never forget. Memories, will never die. We all continue to have memories, even little kids have memories. For instance the little kid. When they are all grown up don't think for one moment that they won't remember a thing that happened to them in life but they will. I could tell you so much about memories, but most of is all will have to understand about memories on their own. Don't be afraid to express your feelings in society.

MEMORIES WILL NEVER DIE!©

Sometimes I have so many memories in my head that it feels like it about to bursts, some memories can start by watching the news, memories that are good or bad. Let start with the bad. Let's talk about Britney, you would think that she gets a once in a life time to make a lot of money and be famous. Wouldn't you think that she would enjoy life a little easier than staying in trouble. Memories will never die. Please don't get met wrong I am not trying to just take a shot at Britney the list goes on, Paris too. Most of these celebrities will have some unusual memories to come. Memories will never die.

MEMORIES WILL NEVER DIE!©

Our memories are here to stay, for life forever, so we the people just have to deal with. For example if we ever have a black president. Most black and whites and others will have to accept it, no buts about it, me personally I think we, all know by now where I am coming from.

Memories will never die. My words are very strong about memories. Most people probably didn't know that little babies have memories of when they were one years old, Sucking on a bottle at that tender age, or when their mother or father take them to their first baseball game.

MEMORIES WILL NEVER DIE!©

Lets capture the good moments of each other as we are American people, who I am I too
speak of memories of all time.

MEMORIES WILL NEVER DIE!©

Sometimes I wonder do we all know what memories are all about most people do, and most people don't. Remember your first job that you have got, and you didn't do things right for the first time and you got fired that consider memories in the past. Memories will never die also remember your first boat ride scary isn't it. But there is memories. Also remember the bank robbery that you have seen with your own two eyes or may be not.

Sometimes it pays to say you haven't seen anything. Maybe this has happened to you or it didn't. Memories will never die.

MEMORIES WILL NEVER DIE!©

Memories is like walking down a dark hall way with no one the next to you and no lights on at all. Now you figure it out. Put it this way if little kids can have memories stuck in your head so can adults. To have memories stay stuck in their heads are good. Astronauts have memories also. Just imagine being stuck in space for months doing a mission. And can't see their family until their mission is completed. Memories will never die. Sometimes we look back at ourselves.

Whatever happened to our memories years. They have come and gone. Memories will happen whether we like it or not. Demons are among us all,

Memories will never die.

Demons are inside our minds. And souls. But we cannot let them control us.

MEMORIES WILL NEVER DIE!©

I cannot go into many details about the shooting and crime in Chicago, well not just Chicago, but Chicago is on the top of the wanted list. Memories will never die. Those type of memories I hope to forgot. But I know it will be very hard. Memories will never die. There are way to many babies that are being killed. There are few too many memories of that. Memories will never die. Why can't there be peace in the world with good memories and not bad memories. Sometimes I try to focus on the good memories but once and a while I would like to talk about the bad memories. Memories will never die. The way the economy is going now a days it seems that those memories are here to stay with us unless something is done about it now. Memories will never die.

MEMORIES WILL NEVER DIE!©

Well memories can lead to all sorts of things like for instance if we have a black president, the whole world will have memories of history. Memories will never die. This type of history will go on for decades. Can we have a black president well we will see, I hope so, because I will vote for one. Memories will never die, well not because he is black it's just that he is very smart and talks the talk that everyone wants to hear. Memories will never die. Some people that I have heard, says it doesn't matter to them what color the president is. As long as he gets the job done around the world and he keeps his promises, memories will never die. As I sit hear drinking some ice tea thinking about all types of memories, that's going on in the world, for instance Chicago has had way too many killings and the violence must stop, there are way too many memories on the news. Memories will never die.

MEMORIES WILL NEVER DIE!©

Memories should be everyone's best of thoughts. Memories will never die. What I ment by that is that our memories are forever on our minds. Let's go back into time, many of years ago. Remember Alca pone, and the gangster movies, those are old memories. Memories will never die. Only if I was born back then in those days sometimes I wonder what it was like back then, I can only go by memories and movies etc. Memories will never die. Also Remember the cars they have driven back in the days. The gangster days. Memories will never die.

MEMORIES WILL NEVER DIE!©

Memories can be thoughtful when your best friend have taken sick and you visit him or ask for her for support, memories will never die. Now a days most people don't offer support to love ones that is needed I think we all should take care of one another but who am I to judge. Memories will never die. Remember memories are here to stay. Most people that you visit them in the hospital they sometimes became moody but you have to over look that and be there for them. Memories will never die. Sometimes I say to myself what I know about memories I am just a writer. Memories will never die. Remember if most of you, Remember anything remember this, we eat and sleep and dream memories. Memories will never die.

MEMORIES WILL NEVER DIE!©

My thoughts my memories could take most people to the imagination. When we think of memories we think of honesty, caring, sharing that's my opinion, memories will never die. Notice I try not to name names on other people's memories, because some people may get offended about the memories in the past, memories will never die. Sometimes we look at life too serious but sometimes we don't have any choice. But to be serious. Memories will never die. As I walk down the halls on a peaceful night I sometimes think of memories through the night. It gets very scary sometimes. The memories that I think of is a cat or dog wondering through night with their tongue hanging out. Memories will never die!

MEMORIES WILL NEVER DIE!©

People just don't know that memories can come bumping threw the night. One day close your eyes at night and fall into a deep sleep and imagine you are falling off a bridge. Memories will never die! Also imagine yourself driving a Army Tank with mummys inside. Most memories can lead to danger. But you should understand that we are only human to the core. Memories will never die! Also Imagine yourself swimming in the ocean with sharks. And there is no one to help you. Memories will never die! What more do I have, to say about memories, there is a lot to say about that. That they will always be there. Remember when Jesse Jackson wanted to run for president of the United States and he failed. Everyone in the world will remember that. Memories will never die!

MEMORIES WILL NEVER DIE!©

And let's not forget the effort Jesse Jackson put into it. We all Try Things and hope that our goals be persude, but we cannot give up. Memories will never die! Memories will only die if you let them. Even in sports. Athletes have memories, teams like the Chicago cubs and white sox most of the players will remember the highlights they had threw out there careers. Memories will never dies. For instance the players remember when the last time how many and for the pitchers the know how many saves they have in a single game memories will never die. Also they know how much their contract is.

MEMORIES WILL NEVER DIE!©

my opinion most of those athletes are over paid. They make more than the president, doctors, lawyers etc. memories will never die! But what can we do about it nothing at all we just have to deal with it. Memories will never die! Remember once again your, memories are here to stay. Sometimes we all hope that we could forget but it's no going to happen. Memories will never die! Memories could be anything and everything, like for instance remember when you have stopped by your favorite grocery store and found out that at first your can of beans where 17 cents a can not 42 cents. A can now. Those are memories

MEMORIES WILL NEVER DIE!©

Memories will never die! There is only one way that you want remember the memories is that if you where in a car accident and you have fell in a coma, that could be the only true way that you could not remember anything. Memories will never die. There could be a lot of possibilities in life but how we could tell. Memories will never die.

Some day I hope to get my dream car soon, the name of the car is a Lamborghini, that's my favorite car. I hope it happen. Very soon. Memories will never die!

Well that is only my thoughts and memories. Remember I have to keep Everyone's Dream a live.

MEMORIES WILL NEVER DIE!©

Right now it's about 2:15 pm the memories starts up again. Memories will just not go away. And we shouldn't let them. Memories will never die. Sometimes memories can be very hurtful, for instance there are men and women in their marriage having ups and downs and eventual get divorce. Memories will never die.

Well I look at memories as thoughts of a rare kind that should be express to others, memories will never die! Some times we all try to keep the memories to their self. But It's very hard. Memories will never die! We'll did you, know disabled people have memories like for instance they remember their accident. Well may be some of them.

MEMORIES WILL NEVER DIE!©

Well one day we'll will be disabled but in another way may be when we are in heaven. Memories will never die! As I again wondering about memories of today and tomorrow. I wonder what comes each and every day of ones life. Memories will never die! Memories can be when all the family and friend get together pick nicks, and fun and not just funerals. Memories will never die! There are times when the little kids play outside with their family and friends and enjoy their selves and don't give a care in the world. Memories will never die! Why don't we all get together. Once and awhile. Once we learn how to treat each other special the world would be a better place. Memories will never die!

MEMORIES WILL NEVER DIE!©

MEMORIES WILL NEVER DIE!©

Memories of today can lead to a lot of problems sometimes you just have to keep strong and keep focus, memories will never die! No matter what problems we face or overcome we will still have our memories to show for. I believe if there wasn't any memories there wouldn't be any hope in life for survival. Memories will never die! Most of us have to survive in this world with memories of today and tomorrow one day a friend came to me I have been knowing for such a long time. He has encountered a financial problem and I had helped him out of a jam. Those are memories he will not forget. Memories will never die! Memories can be when you see a little kid playing in the middle of the street with his friends. With a paper airplane, memories will never die!

MEMORIES WILL NEVER DIE!©

As I sit on the patio thinking about the good and the bad memories. Of all time and whats happening in the world. Memories will never die! Some people I know think memories are for crazy people, some keep their thoughts to their selves but it's not true. Memories will never die! People tell other people that they are crazy for having memories. It's just a known fact that memories in your head stands alone. Only you know the memories that you store inside your head. Memories will never die! Your memories in your head is like a laptop like I said once again only you hold the key to your own memories. Memories will never die!

MEMORIES WILL NEVER DIE!©

doctors have, memories also, I think he does have memories. I believe in God don't we all. Memories will never die. If there were no memories their wouldn't be no fun now wouldn't it. Remember the time when every one was a little baby and you said your first words. That's also memories. We keep them all in our heads. And our hearts. We all should believe in memories.

Memories will never die! Memories will keep you healthy in spirit and soul. Our memories should be laid to rest, for instance the street gangs in big city like Chicago, New York, LA ECT. The killings once again must stop and join your hands together and lets have a good future for our young kids xxxx xxxx .

MEMORIES WILL NEVER DIE!©

Memories could be a beautiful relationship in the sky. And memories could be death, it's what your mind capture. Memories will never die! Memories could be the time when you lost your house or car threw Economic times. Those memories are sad memories we just have to think positive of the situation we are in. Memories will never die! I have seen a lot in my life. Remember heir are so many memories to think about. Remember some years ago. The news media have talked about the mad cow disease. Memories will never die! Threw out my life the memories never stop. Memories will go forever. We just have to pray a lot for good memories. Memories will never die!

MEMORIES WILL NEVER DIE!©

As my forehead sweats in the steamy heat at a near by lake as I sit under a shed tree just thinking about more memories that's happening to us, all in life. Memories will never die! I rather think these memories out alone sometimes. And thinking it out alone works. There is peace in your life. The earth doesn't just stand still by its self, their have to be memories that's left behind. Memories will never die! Please take in consideration that these memories is just not for me but for everyone. Memories will never die!

MEMORIES WILL NEVER DIE!©

Sometimes memories can be frustrating, depends on how you put it: Take a look how the world rotates. That's how ever body mind is. Memories will never die! My memories happened everyday, I can't go one day or night without having a memory of something that happened that day, even at work we could have a bad day. You can have a bad day any given time, you just have to deal with it or change your environment. Memories will never die! As I sit here drinking my ice tea, I feel a sight of more memories in my head. For instance I could tell you a memorie when the time when my cousin lost his drivers license, what I mean is, they were permanently suspended because he hit a old man with his car

MEMORIES WILL NEVER DIE!©

It was a accident. There were guys chasing him in his car in the city of Chicago. There were word that they wanted his car. Now that's memories, me or my cousin want forget. Memories will never die! Once again memories could be all sorts of things that comes to mind. For instance remember the times when your family, heads out to Aldis, the stock up store, and somehow you and another customer argue about who was in the check-out line first. Memories will never die! I guess those was the times, all of this I am talking about considers memories. Memories that we will keep in our

MEMORIES WILL NEVER DIE!©

memories will never die! Also memories can be when you bought your first car. Your so called friends all of the sudden they want to hang with you now sense you bought yourself a new car but that's life we, all have to deal with it. Memories will never die! Sometimes I just wanted to close my case about having memories, but it will be very hard not to forget. Memories will never die! By the way lets stop for a minute I want to talk about one of my memories. Let me turn back the clock. Let's start by talking about the stars Al B sure, ECT. Those are my famous people I enjoy seeing on the stage. Memories will never die!

MEMORIES WILL NEVER DIE!©

Well from my understanding memories could be a lot of things. For instance memories can take over your mind and body. Memories are here to stay for sometime to come. All I could tell you is don't let your memories kill you. Memories will never die. There is one memory I would like to share to the world is one day a friend of mine had told me that a old man tried to walk across the train tracks. Guess what had happened, the old man was struck by the train, the old man body was so badly torn apart that he was not recognizable. Memories will never die. Must memories should have a closure to it and I think this will right now. And I hope memories of today and of tomorrow will be a memorable of all time. So memories will absolutely never die.

Memories will never be forgotten my dear sister mary
I will always Love her. To stay strong of her passing
In 2009 is very difficult for me. But the memories we
Shared from the time she lived on this earth brought
Smiles to everyone faces. She loved everyone and I
Mean everyone. On this last note memories will
Never die! This book is dedicated to my sister mary
e. moton. Love you very much your only brother

Jr.
