BUSY BODY

Shirley Francis - Salley

Illustrations by John McNeas

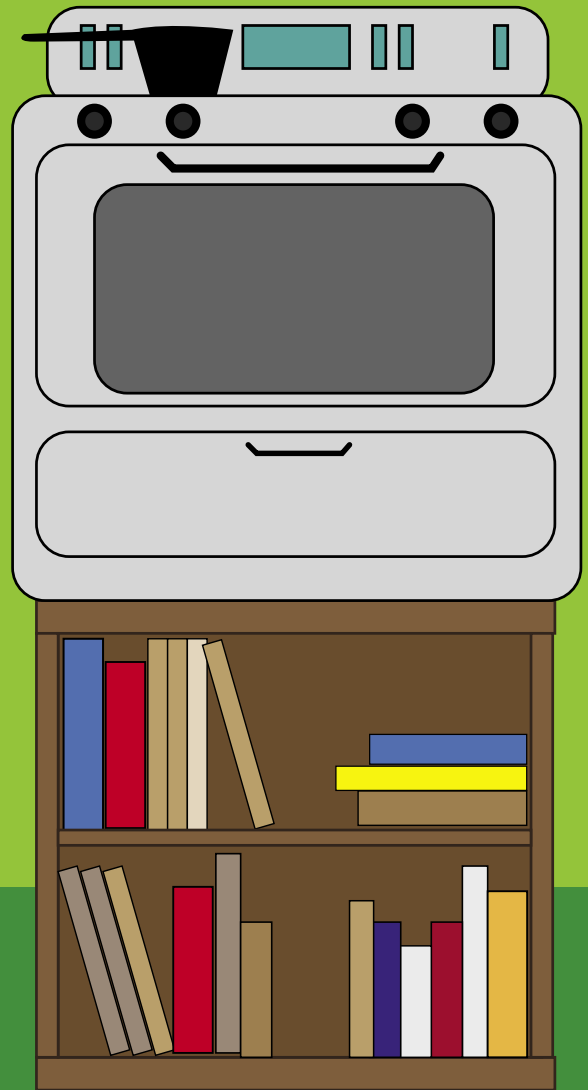

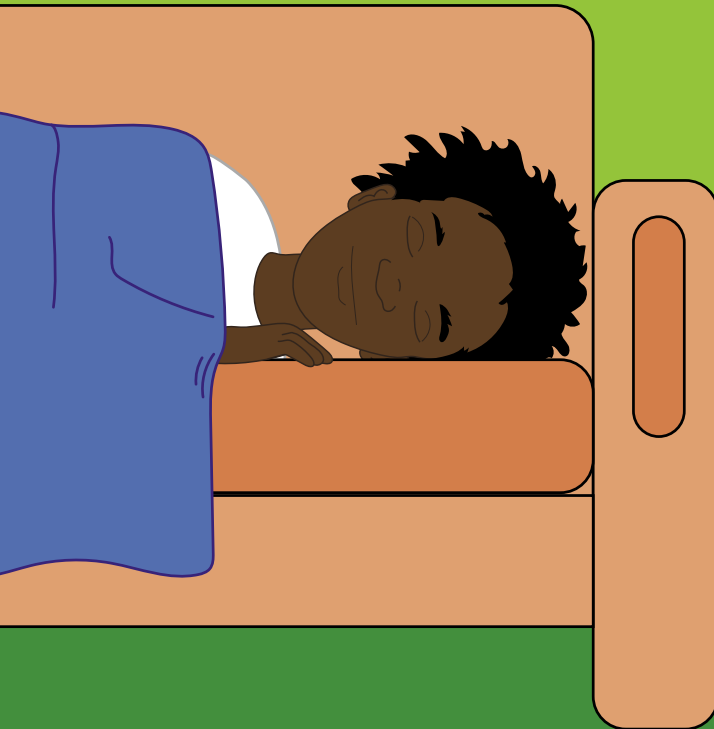

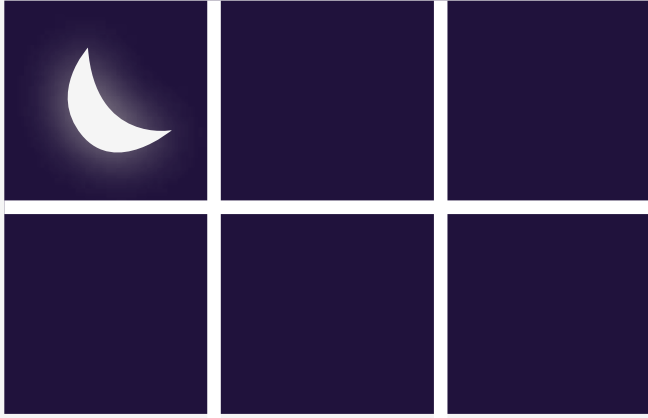

And Jesus said. . .
"This is my commandment:
Love each other in the same way
I have loved you."
John 15:12 NLT

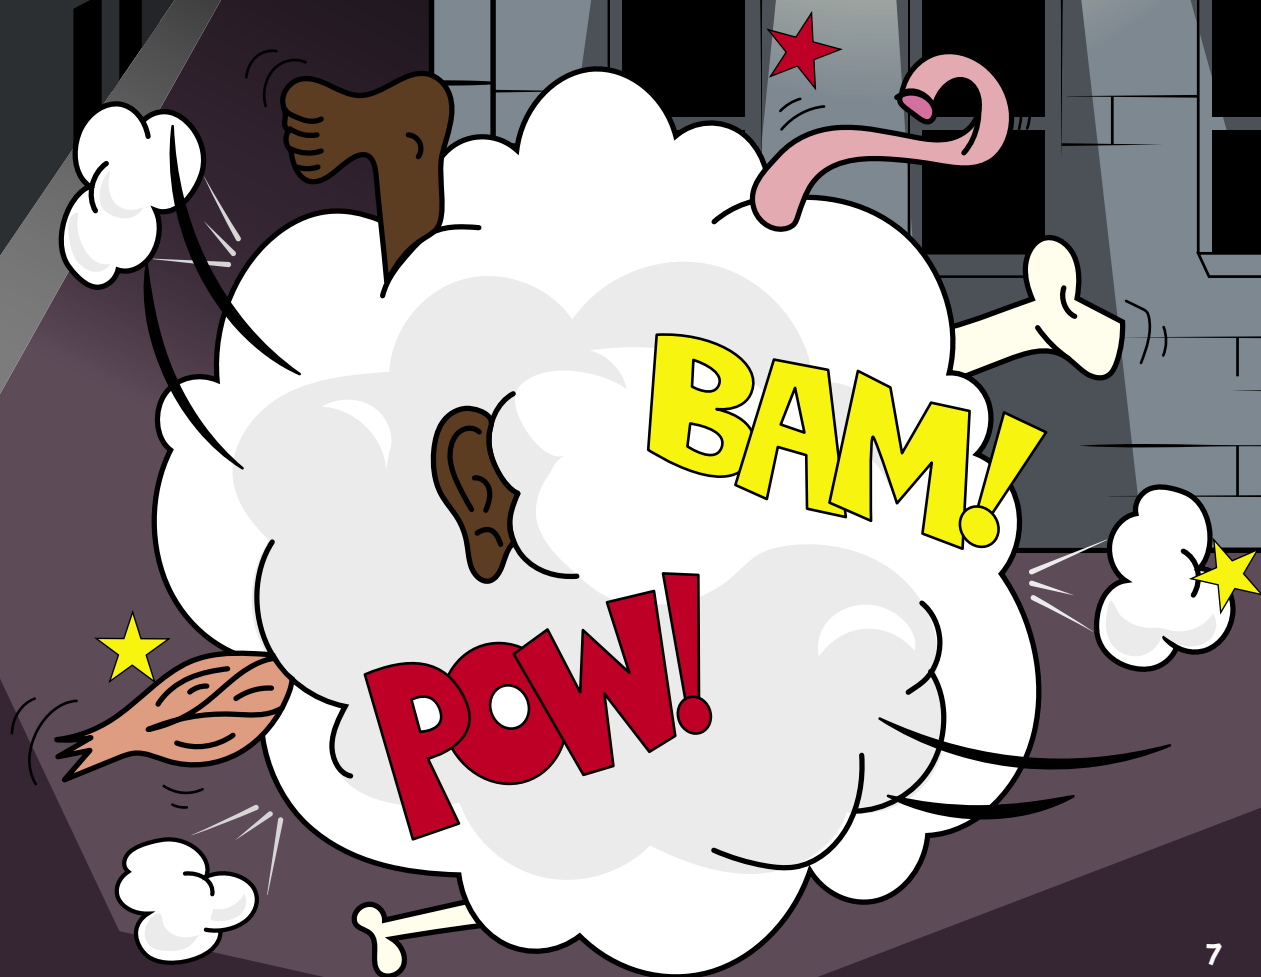

Dedication

To You Abba Father,
And
To Parents, Children's Ministry Teachers, Youth Leaders,
and the Children we love.

Have you ever seen a stove sitting on a bookshelf?

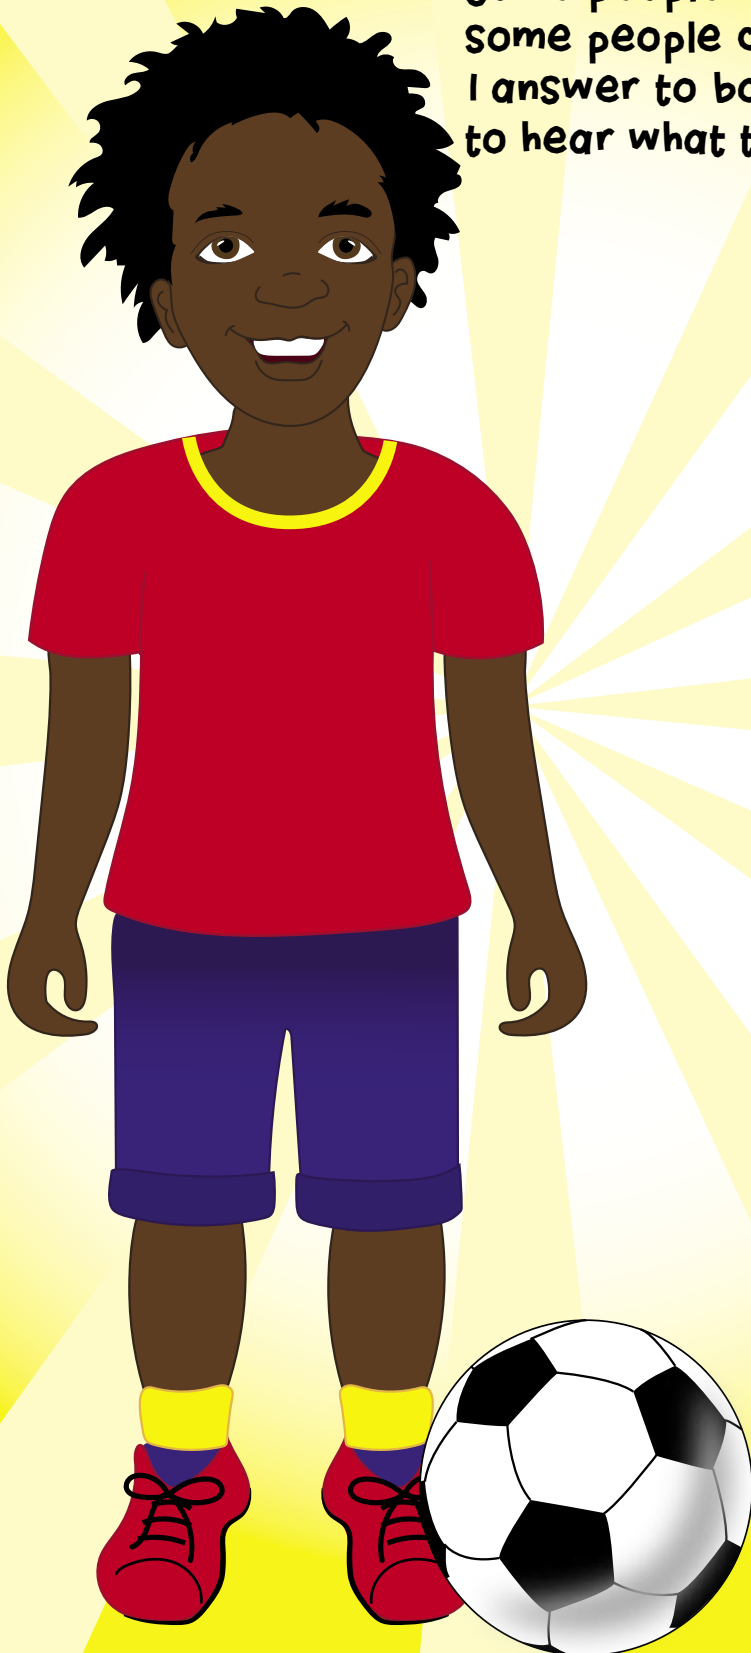

Or a body having a fight with itself?

Both things sound strange I must say,
but one of them happened to a boy named Trey.

Some people call me Treyvon,
Some people call me Trey.
I answer to both of my names,
to hear what they have to say.

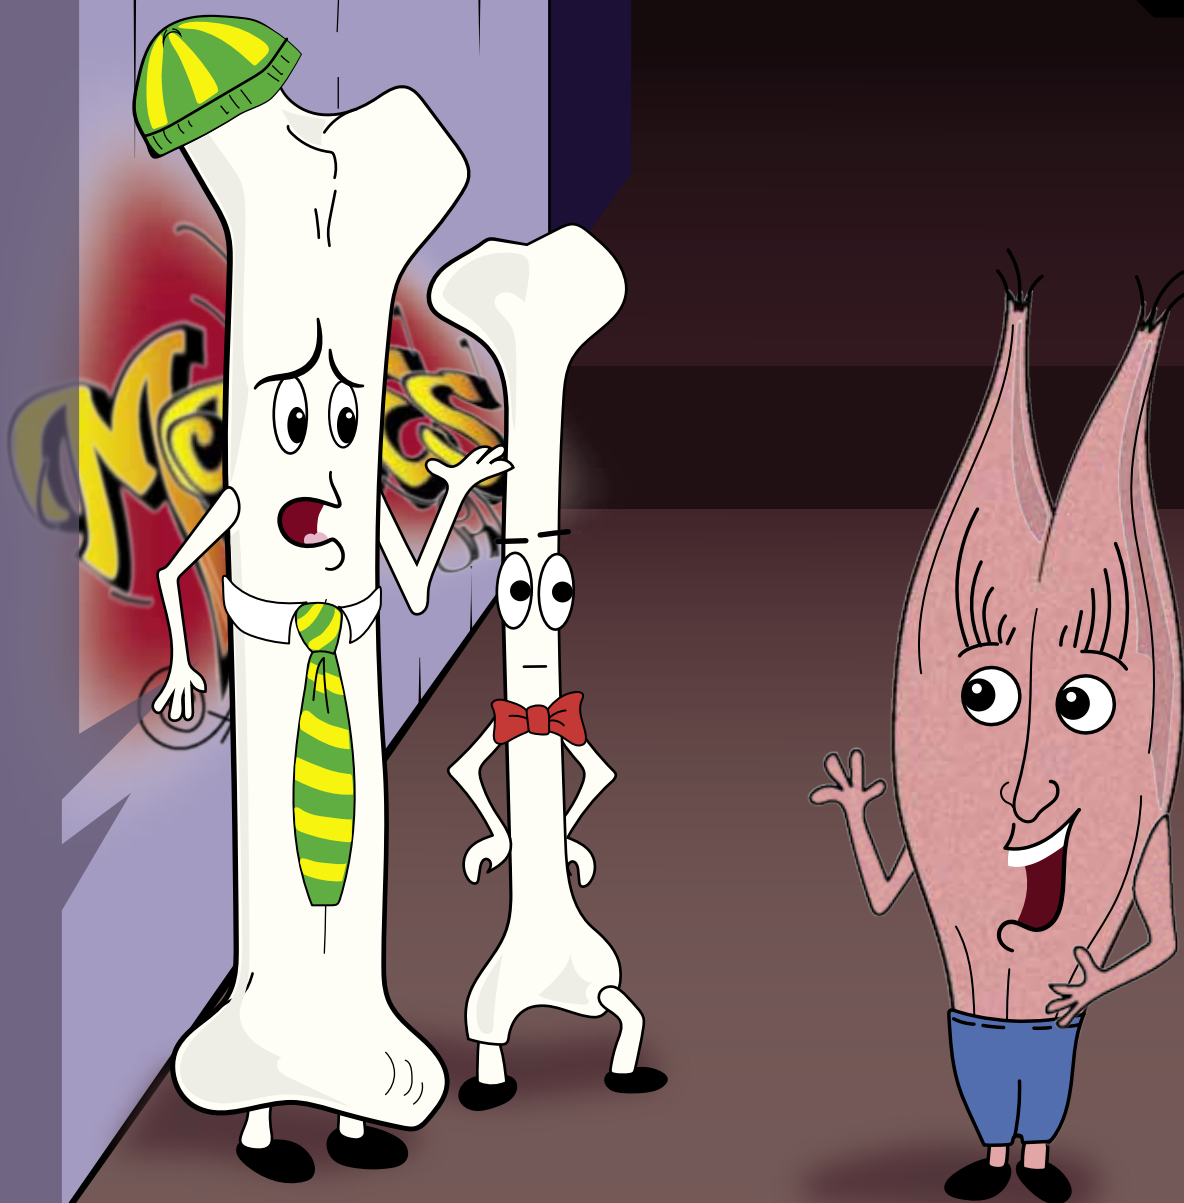

What's up
Trey?

Hey Treyvon,
how's it going?

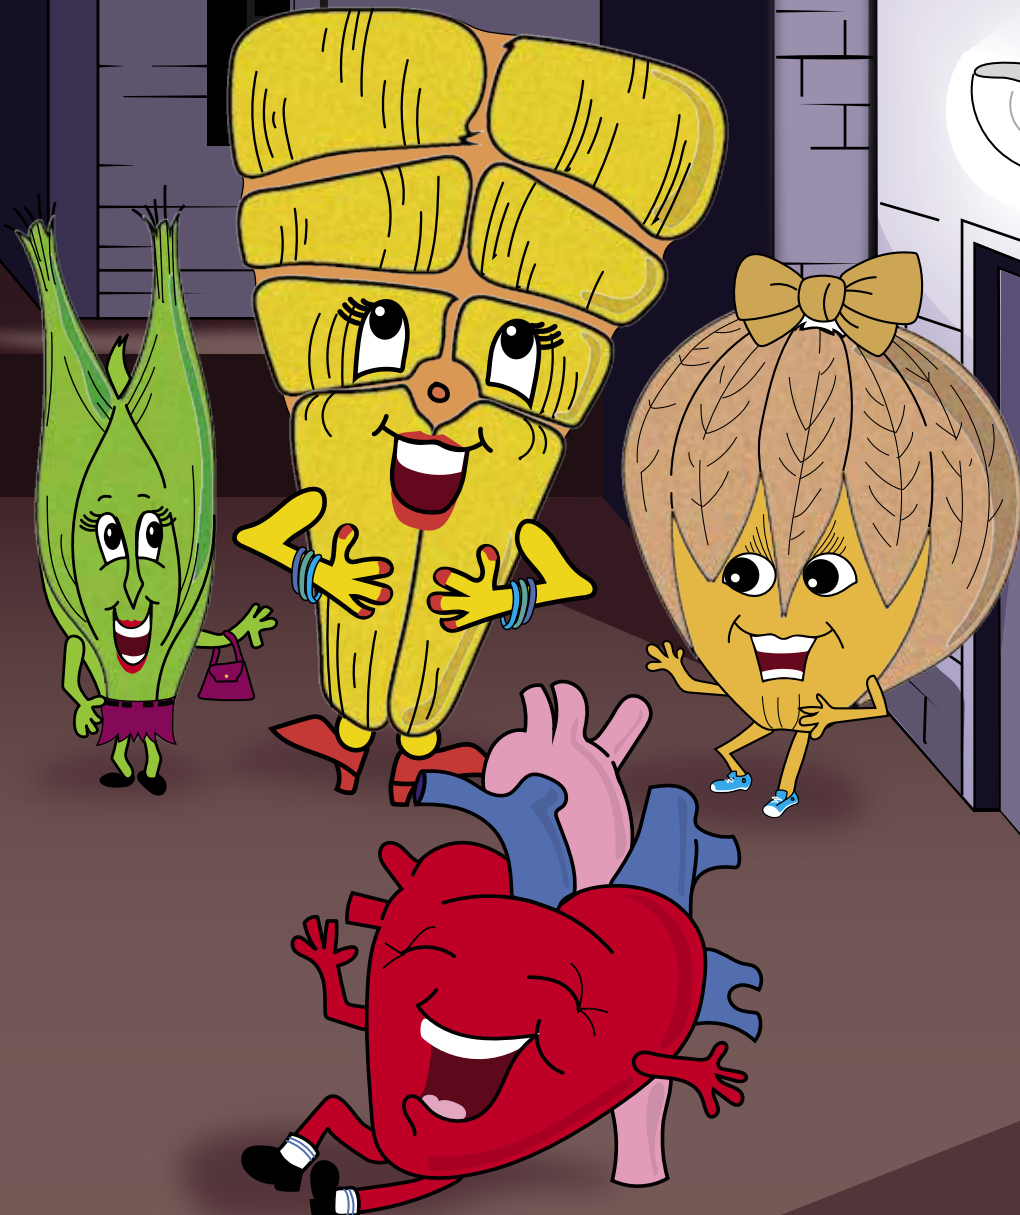

Trey's body is made of bones, organs, and muscles,
and one night, his body parts started to tussle.

"We're stronger than you. We do the most work!"
said his bones to his muscles who laughed till they jerked.

"Stronger than us? That's just not true,
Trey's body won't move unless we do.

We're his biceps, his triceps, his abdominals too,
we're his deltoid, his heart, just to name a few."

**"But what about us?" asked the bones in a huff,
"No part of Trey's body is as strong or as tough!"**

**"We're his femurs, his tibias, his ulnas, and jaw,
his ribcage, his clavicles, his skull and much more."**
