I Wished on a Star

*I wished on a star for a special guy
I wished on the moon, way up in the sky*

*the star blinked a message to wait for a sign
the man in the moon said, Now is the Time*

*You appeared in my dreams, and then in my arms
You won my heart, with your intimate charms*

*You held me tight, close to your heart
We seemed to become one, right from the start*

*What does life hold for this girl and this guy?
We will leave it to the moon and the star in the sky*

*there is no hurry , when two souls meet in love
for the union is blessed by our Father above.*
