To put colors on a surface, staying within certain lines and applying your medium of color smoothly over a surface is a great accomplishment every an artist can take pride in.

Mastering the skills in painting is like mastering a very hard crossword puzzle only in puzzles you are mastering the language of words, in painting you are mastering the skills of:

- (1) touching with a pencil, brush or computer mouse.**
- (2) mixing and selecting colors**
- (3) growth in developing a talent**
- (4) patience in completing a project**

Painting is challenging because the skills required to be a great painter takes a lot of determination and the completed project is a tangible object that all humanity can admire for many life times.
