

Toujours Amour

**I can't endure toujours amour,
I need a rest and cure, Cheri.
You know I care, but I declare,
Let me come up for air, Cheri.**

**The whole world knows that quelque chose
Is fun and so risqué
But, mon petit chou
I cannot do this
Each and every day!**

**Oh, do not weep, amour will keep
But now I need some sleep, Cheri.
I'm not demure, I'm quite mature
And though I love amour, for sure...
Toujours Amour's too much.**
