

From the Mind of Mentallll is a collection of poems that were compiled throughout the turbulent times of the author's life. They express his thoughts on various topics and share some of his innermost feelings.

It was written to shed light on the law, human nature, and the innermost parts of the soul. The author has tried to put himself into other people's shoes so that he could let you see through their eyes.

From the Mind of Mentallll was also written to be entertaining. This is why the author, Mr. Shannon L. Clements, wrote both a compilation of poems and a short story written in rhyme format. Each one of those poems contains a lesson to be learned and each one of those lessons was compiled into one short story, which is titled, "Deceitful Ties."

My name is Mr. Shannon L. Clements. I was born on March 9, 1977 at Grace Hospital. My journey into the realms of poetry began at Bagley Elementary School. Ms. Triletti sparked my interest in poetry and my first poem was written under the tutelage of Ms. Moody.
