

How do you know when you are in love? What is true love and what is not? How can I find a person to love and share the rest of my life? Will true love come to me naturally? How can I build a relationship?

The poems in my book answer these questions. People are eager to find true love—love that will not last a short period of time, but for a lifetime. *Eternal Love* is designed to answer these questions and more. It is divided into two sections that correspond with the way most people “experience” love: explanation of love (research) and the love poems (using poems and love letters that I created). Each part highlights a particular aspect of love, what love is, and how it can be obtained.

Many philosophers and writers have tried to find the true meaning of love, yet true love still remains to be one of the most mysterious feelings on this planet. Sometimes we are not always aware when true love comes our way. True love is not something we can control. It takes control of our mind, body, and soul. But when it does come our way, it enriches our lives and makes our heart sing with joy. True love is magical, and no one should have to live without it. *Eternal Love: Romantic Poetry Straight from the Heart* is a collection of poems that describes the true meaning of true love. So find a comfortable spot in your home and get ready to encounter the magical journey of eternal love.
